

## Notification to Fishermen

### Nord Stream 2 Project

30.04.2020

#### 1. Purpose of this notification

Nord Stream 2 AG hereby submits a notification for the activities to be performed for the Nord Stream 2 Project in May 2020.

In May, rock placement is the only project activity to take place along the pipeline route in Swedish, Finnish and, potentially, in Danish waters.

Nord Stream 2 AG reminds that the construction vessels have limited manoeuvrability while performing their work, and that safety exclusion zones are therefore established around the vessels carrying out the Nord Stream 2 activities.

#### 2. Planned Vessel

**Rock placement along the pipeline route in Finland, Sweden and (potentially) Denmark**

*Rockpiper – Call sign: 5BML3*

### 3. Duration and locations of activities

In May, **rock placement** will be the only Nord Stream 2 construction activity. *Rockpiper* is planned to be deployed in Finland, Sweden and potentially Denmark. Rock is planned to be loaded in Inkoo in Finland.

The maps below illustrate the planned May activities. Please note that these details are subject to change for operational reasons.

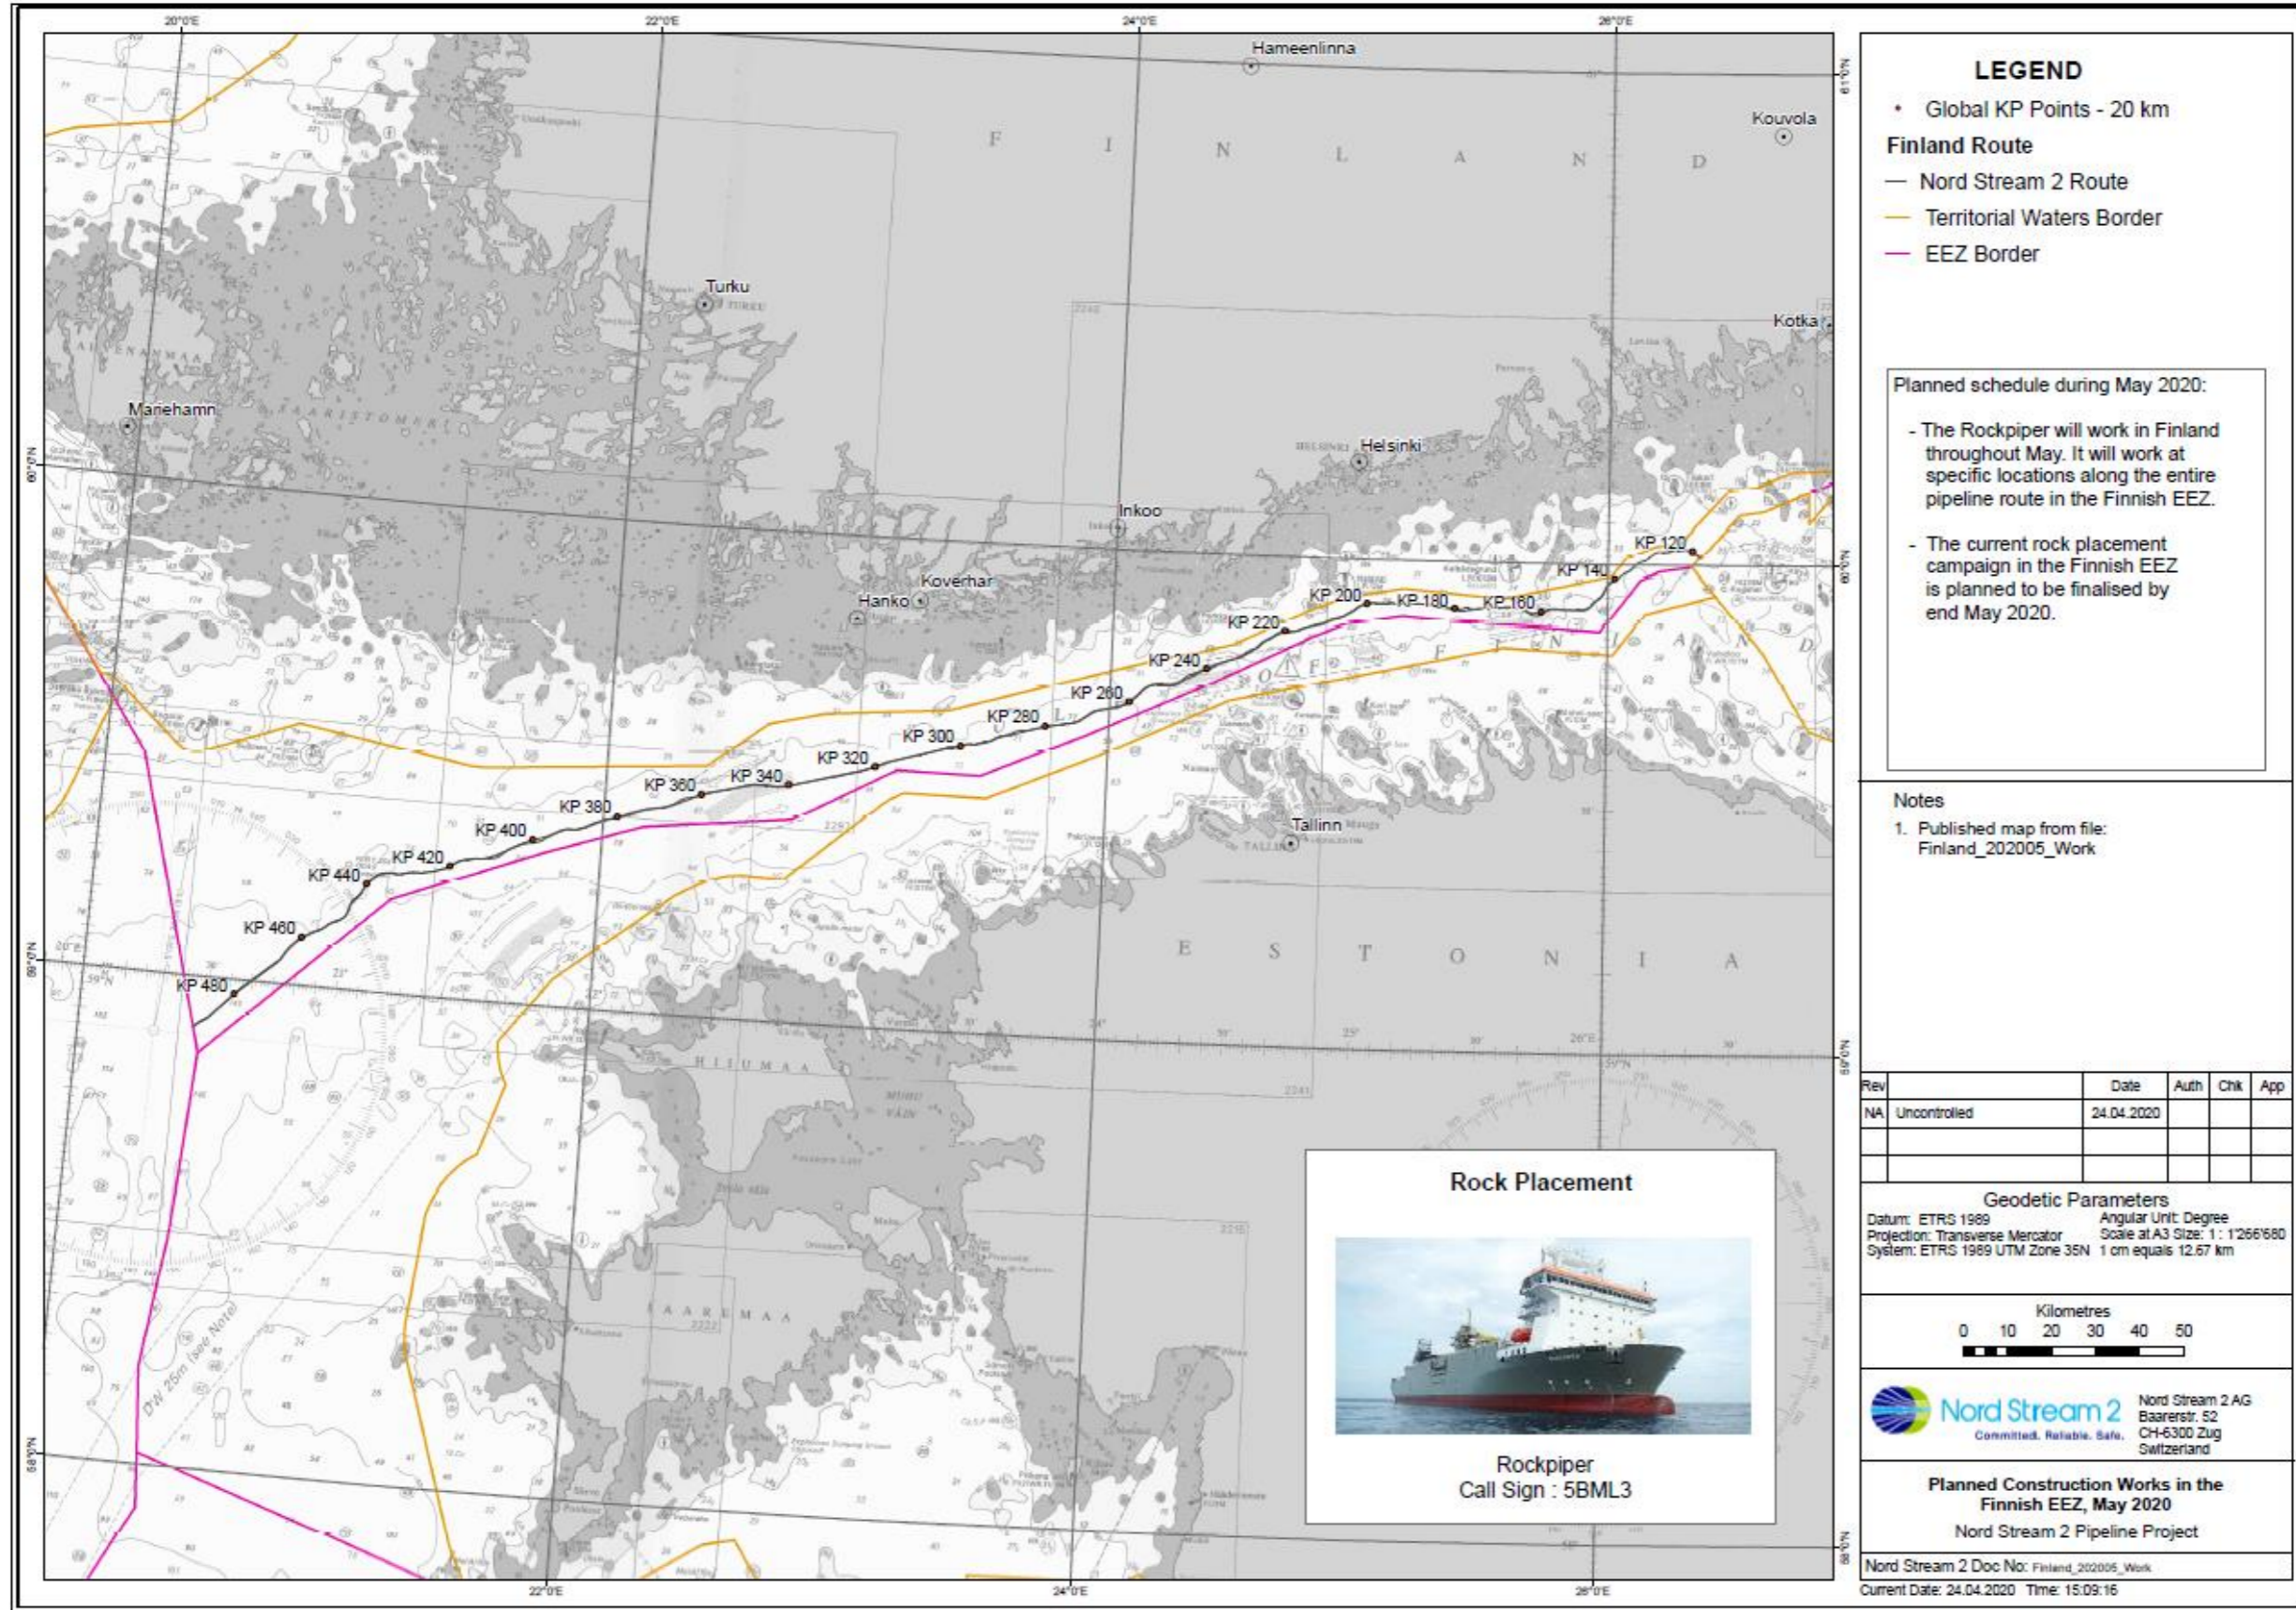

Figure 1: Nord Stream 2 rock placement activities in May in the Finnish EEZ.

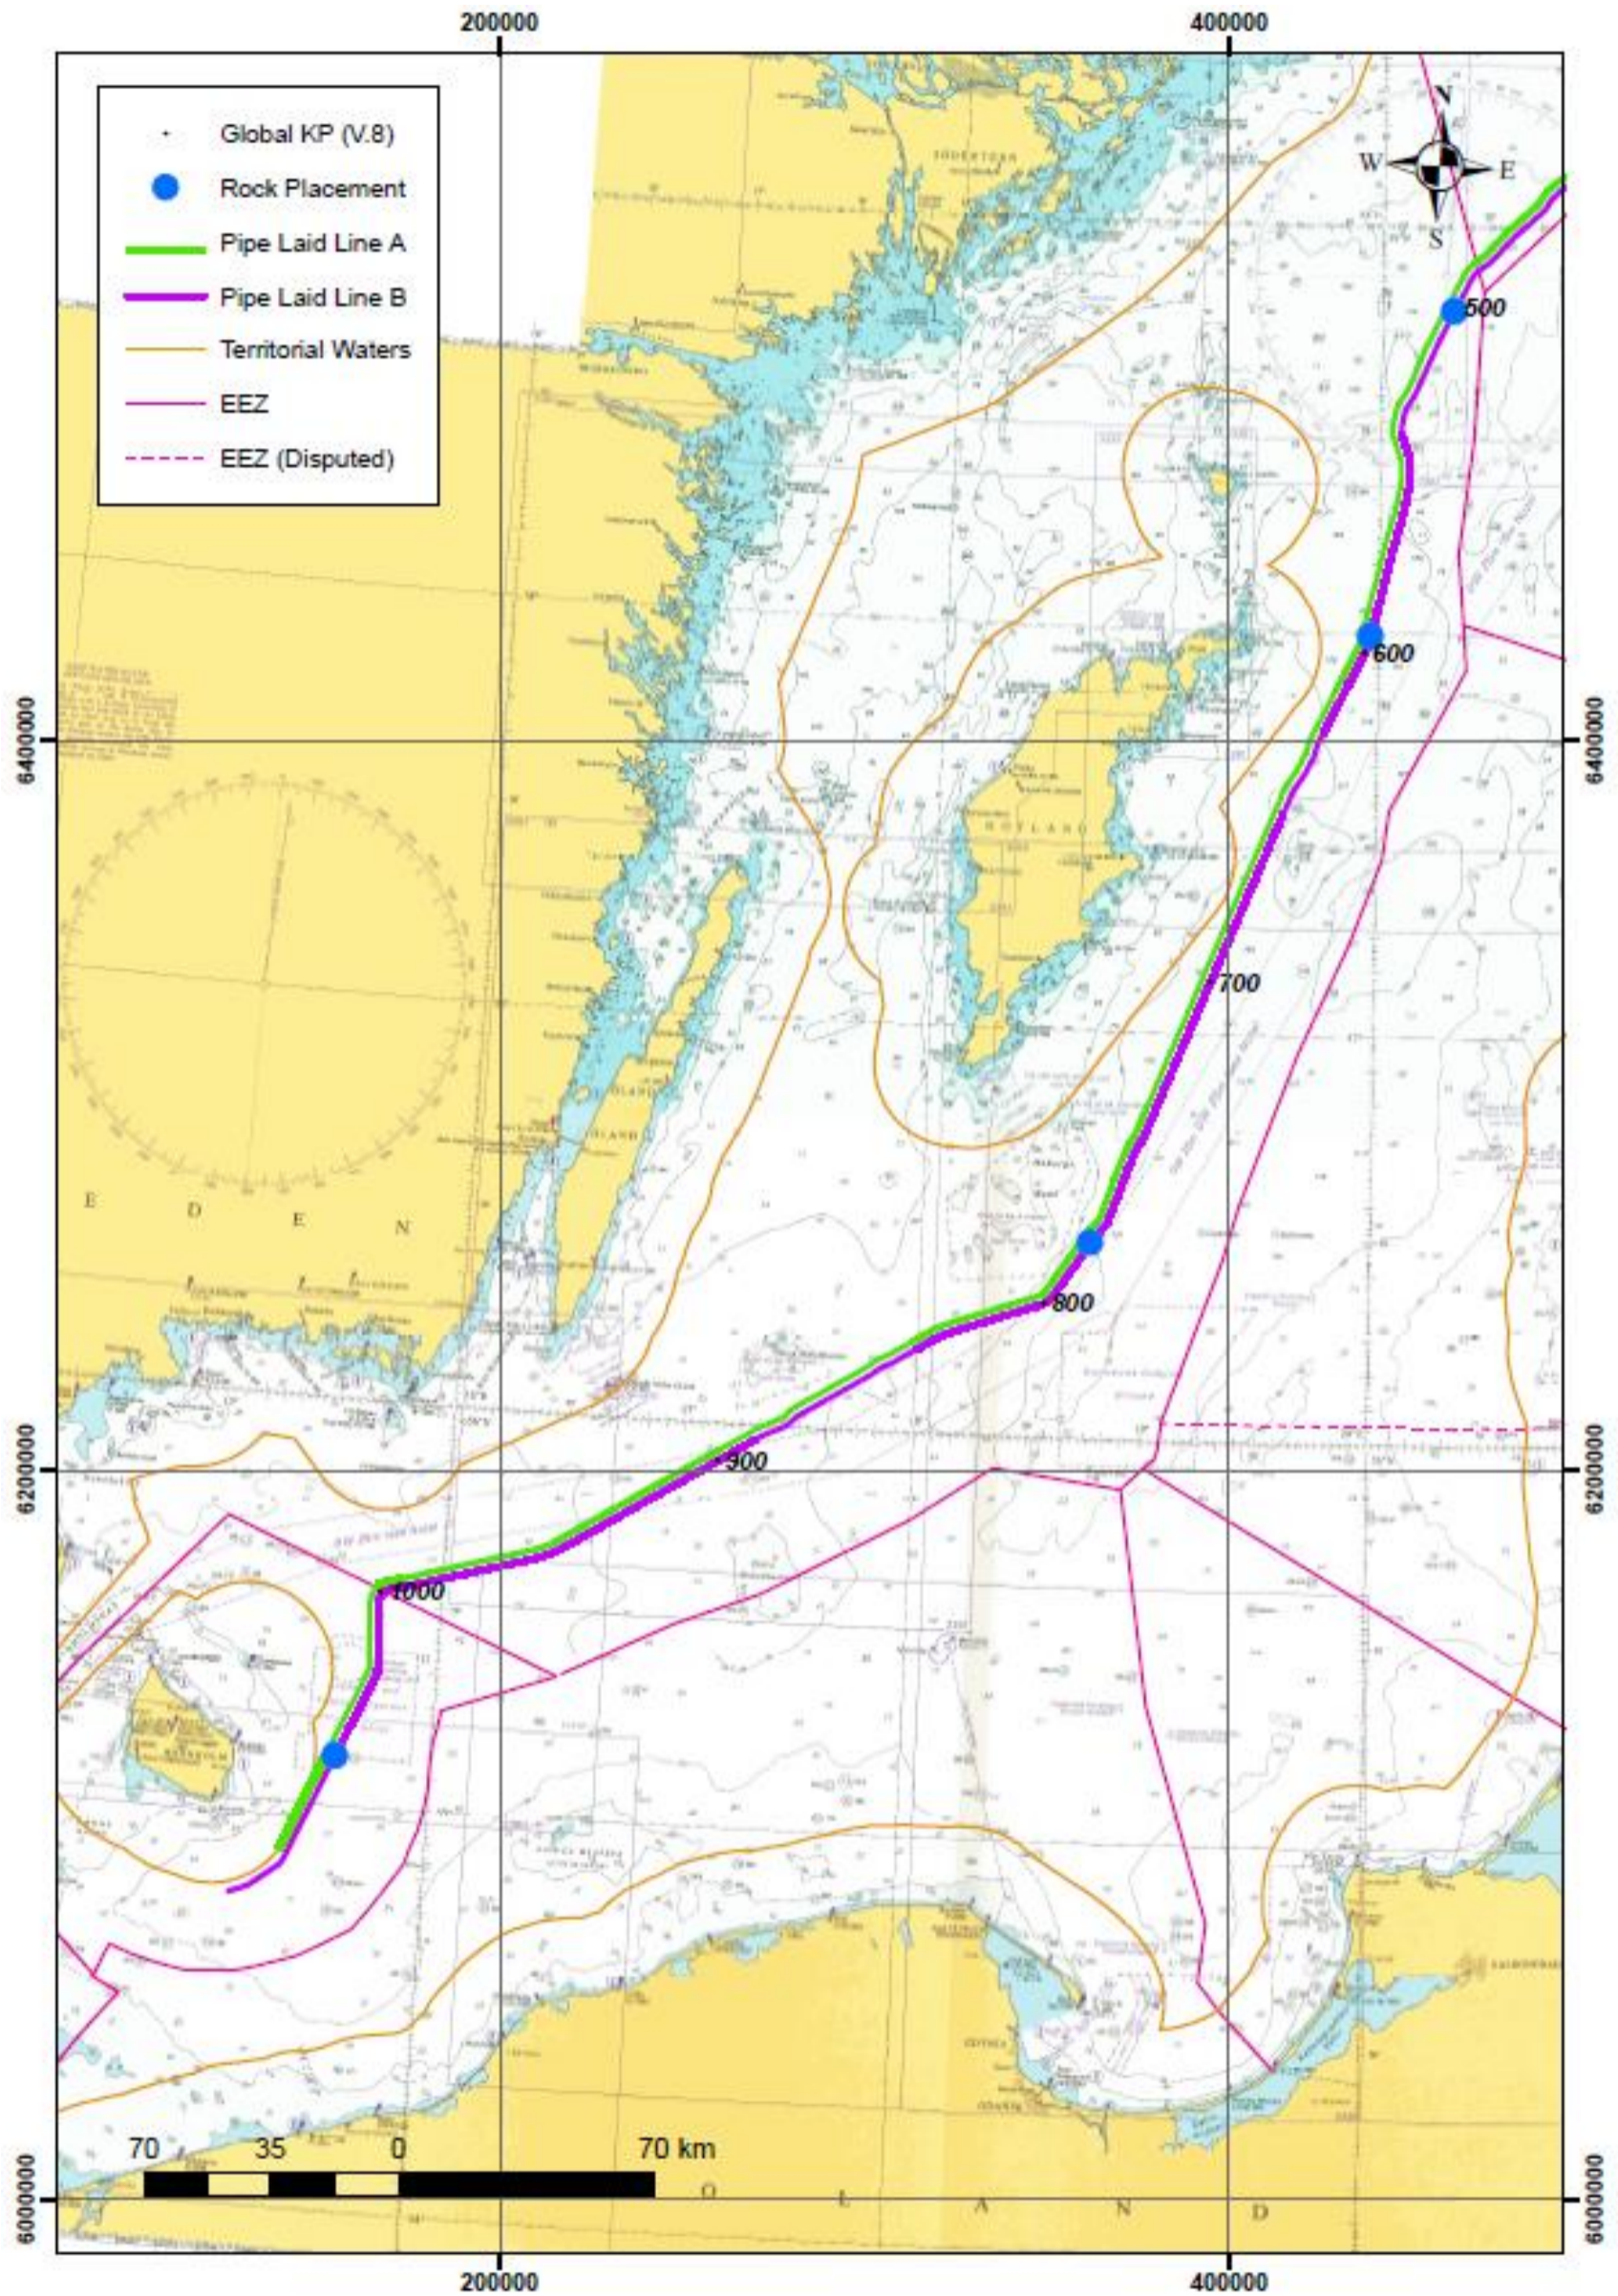

Figure 2: Nord Stream 2 rock placement activities in May in the Swedish and, potentially, Danish EEZ

#### 4. Exclusion Zones

Nord Stream 2 AG would like to highlight that a safety zone of 500 meters is established around the vessels performing rock placement activities for Nord Stream 2 Project.

Information can also be found on the Notices to Mariners web-pages, available at:
