

Notification to Fishermen

Nord Stream 2 Project

29.05.2020

1. Purpose of this notification

Nord Stream 2 AG hereby submits a notification for the activities to be performed for the Nord Stream 2 Project in June 2020.

In June, rock placement is the only project activity to take place along the pipeline route in Swedish, Finnish and Danish waters. We plan to conduct these activities of short duration only during the first few days of June.

Nord Stream 2 AG reminds that the construction vessels have limited manoeuvrability while performing their work, and that safety exclusion zones are therefore established around the vessels carrying out the Nord Stream 2 activities.

2. Planned Vessel

Rock placement along the pipeline route in Sweden and Denmark

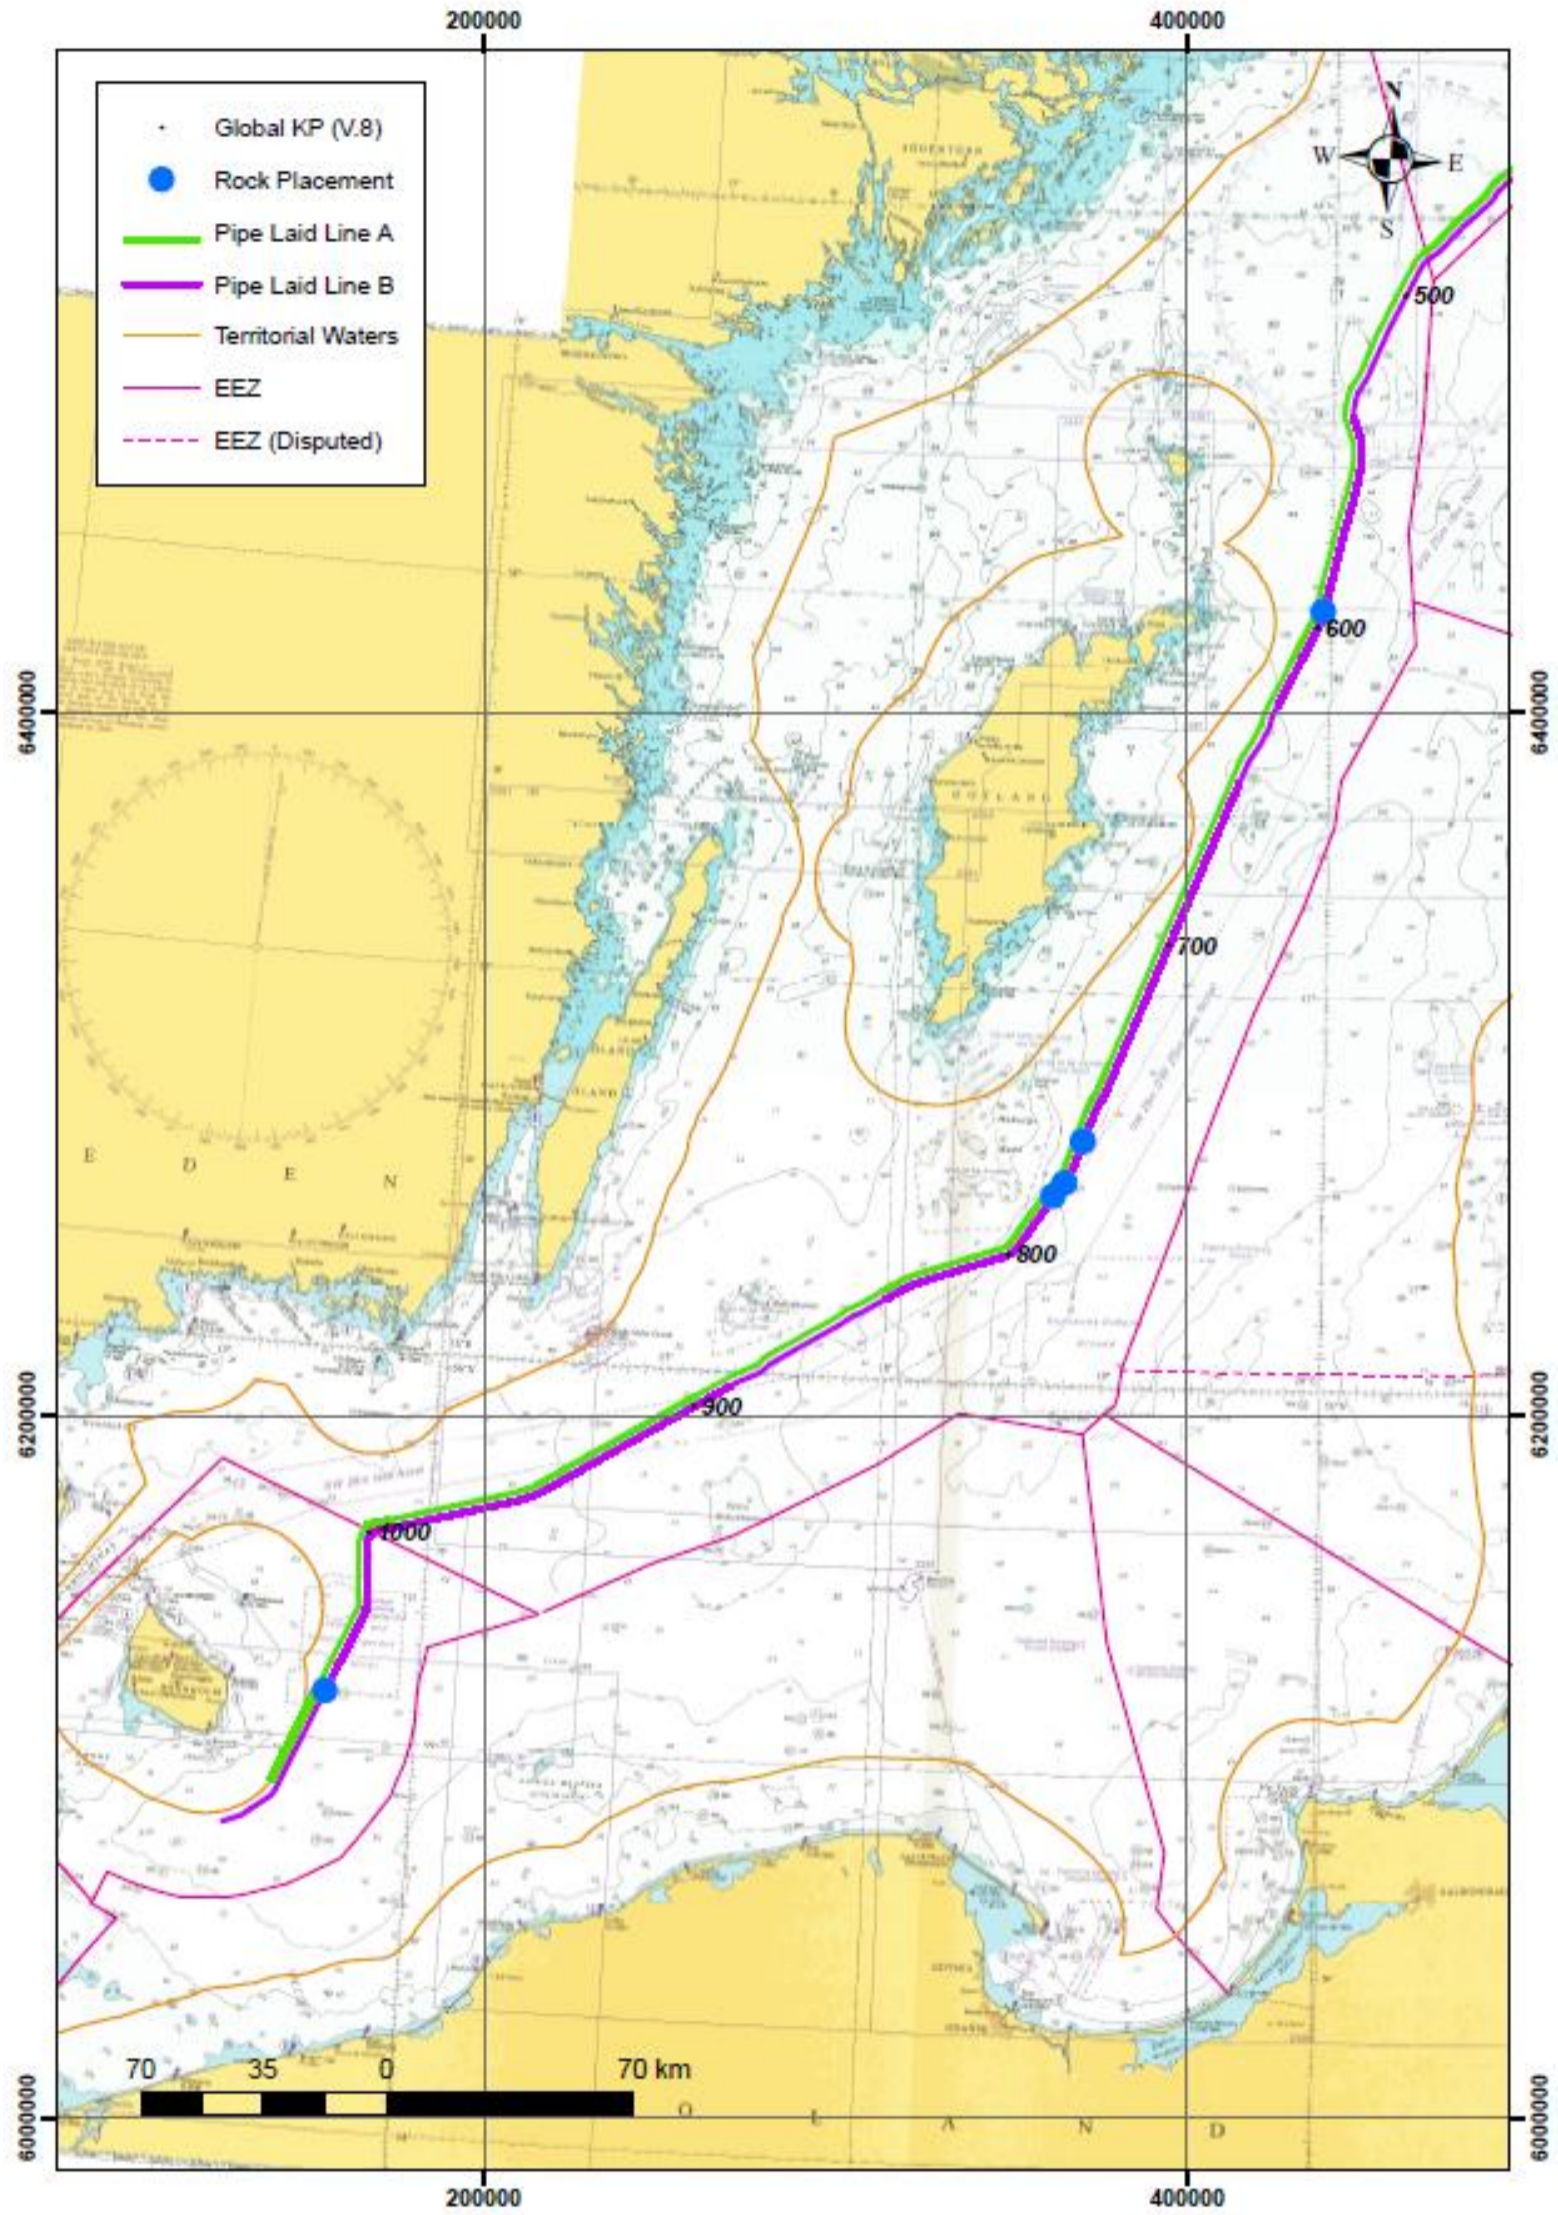

Rockpiper – Call sign: 5BML3

3. Duration and locations of activities

In June, **rock placement** will be the only Nord Stream 2 construction activity. *Rockpiper* is planned to be deployed in Finland (completing works on June 1st) and Sweden and Denmark (only in the first few days of the month). Rock is planned to be loaded in Inkoo in Finland.

The map below illustrates the planned June activities. Please note that these details are subject to change for operational reasons.

Nord Stream 2 rock placement activities in June in the Swedish and Danish EEZ

4. Exclusion Zones

Nord Stream 2 AG would like to highlight that a safety zone of 500 meters is established around the vessels performing rock placement activities for Nord Stream 2 Project.

Information can also be found on the Notices to Mariners web-pages, available at:
